SMART HOUSING DEVELOPERS IN MONTGOMERY
KNOW THAT HANCOR SURE-LOK® ST PIPE
IS THE BEST CHOICE FOR SAVINGS,
QUALITY AND RELIABILITY

BLUE STRIPE: LEADING THE WAY.

See details inside.

NEW DEVELOPMENTS ARE USING HANCOR SURE-LOK ST PIPE AS THE SMART ALTERNATIVE TO RCP

SUPERIOR ENGINEERING:

Sure-Lok ST pipe provides the strength needed for tough applications. It offers abrasion resistance and won't rust or corrode like concrete or steel.

ADVANCED DRAINAGE APPLICATIONS:

Hancor Sure-Lok ST pipe is used for cross drains, side drains, storm sewers, culverts, landfills and other installations across the country. It's available in a wide range of sizes from 4" to 60" diameters for flexibility in all your projects.

Hancor HDPE pipe is currently being used on 6 local projects. Lowder New Homes, one of the largest developers in Montgomery, AL is using our pipe on two upcoming developments, Stoney Brooke Plantation and Woodland Creek. Our products were offered at a much lower price than RCP from Dubose Construction.

EASY INSTALLATIONS:

Its rugged, lightweight design makes Sure-Lok ST easier and more cost-effective to install. It requires fewer people, less time and less heavy equipment to install compared to concrete pipe installations. It all adds up to lower installation costs.

Hancor Sure-Lok ST Corrugated High Density Polyethylene (HDPE) pipe offers top-performance for drainage systems. The City of Montgomery, Alabama now approves the use of Hancor Sure-Lok ST pipe.

HIGH PERFORMANCE JOINTS:

Hancor Sure-Lok ST and Hancor Blue Seal® pipe are available with both soil-tight and water-tight joints that meet or exceed ASTM standards.

OUTSTANDING VALUE:

Sure-Lok ST pipe has many performance advantages over traditional pipe...at a fraction of the cost.
